Defensive and Performance Driver Training Stage 2

Eastern Creek Driver Training has created a STAGE 2 one day SKID and CAR CONTROL course for drivers who have completed the Stage 1 Defensive Driver Training program or a similar starter's school.

The STAGE 2 SKID and SLIDE CAR CONTROL course is designed for drivers wishing to further develop their driving knowledge and skill using their own vehicle.

STAGE 2 is conducted on the Eastern Creek Driver Training skid pan and skid circuit.

Students are taught how to manage loss of control situations through repetitious practice along with minimal theory sessions.

Instruction focuses on the three loss of control situations...

- * UNDERSTEER (front wheel skid)
- * OVERSTEER (rear wheel skid)
- * FOUR WHEEL SLIDE

Conducted in a relaxed environment the STAGE 2 SKID and CAR CONTROL course is entertaining and fun. With one instructor to four students drivers gain a better understanding of their vehicle and how to manage everyday circumstances and avoid dangerous situations.

STAGE 2 is suitable for **fully licenced** motorists wishing to acquire additional defensive driving skills.

Eastern Creek Driver Training is conducted by qualified instructors with one instructor per four students. SPECIAL ATTENTION IS GIVEN TO STUDENTS WITH FOUR WHEEL DRIVE VEHICLES.

Theory sessions are held in a comfortable air-conditioned lecture room. Driving activity is at suburban road speeds in a controlled environment on Sydney's largest skid pan and skid circuit.

Courses commence with sign on at 8.45 am and conclude at 4.00 pm.

IN THE CLASS ROOM... Why vehicles loose traction, Road Rules / Attitude, Vehicle Care, In Car Safety, Driving Position, Awareness / Anticipation / Actions.

ON THE SKID PAN... General car control exercises / Speed and stopping distances, Looking Ahead, Emergency Braking, Brake and Swerve, Understanding ABS Brakes, Mirrors and Vision, Lane Changing, Cornering, Skid Control.

ON THE SKID CIRCUIT... Learn car control in a realistic safe environment on a wet 400metre road that incorporates a variety of twists turns and corners using Understeer, Oversteer and Four Wheel Slide.

INVESTING IN SAFETY.
